SERGIO JOSE VALENTE DA CRUZ

FULL-STACK DEVELOPER

Full-Stack Developer and IT professional with over 3 years of hands-on experience in database support, system integration, and IT operations. Currently working as a VAS/IN Support Officer at Telkomcel, I have designed and delivered scalable web platforms and tools for both corporate and government institutions. Originally from Bauro Village, Iralafai area, Lospalos – Lautem Municipality, I carry a deep sense of purpose in using technology to uplift local systems and drive sustainable progress in Timor-Leste.

Proficient in Golang, PHP (CodeIgniter 4), and modern web technologies, with hands-on experience in system integration, automation, and application development. Skilled in designing secure and scalable solutions, documenting processes, and delivering reliable IT support. Strong problem-solving mindset and adaptability in tackling technical challenges across software, infrastructure, and user support environments.

I consistently demonstrate teamwork, integrity, and accountability, while maintaining a proactive and solution-oriented approach. Known for being reliable and adaptable, I take pride in delivering quality results, supporting colleagues, and approaching every responsibility with diligence and commitment.

TECHNICAL SKILL

Languages: Go, CodeIgniter 4 (PHP Framework),Laravel(PHP Framework), JavaScript, Python, C++
Databases: MySQL, PostgreSQL, Oracle, MongoDB
Frameworks/Tools: CodeIgniter 4, Laravel, Go Fiber, Flutter
Technologies: REST API, JWT Security, Docker, Redis, APISIX, Grafana, QR Code, CI/CD, Git, Nginx, Apache
Other Skills: IT Troubleshooting, System Documentation, Asset Management, Internet Of Things (IOT), Cyber Security

PROFESSIONAL EXPERIENCES

O&M VAS/IN SUPPORT OFFICER Jun 2023 – Present
TELKOMCEL – DILI, TIMOR LESTE

1. **Design application flow diagrams and database schema**, and lead development planning to ensure efficient, secure, and scalable internal systems.
2. **Develop and maintain MySQL-based platforms**, including internal dashboards, broadcast systems, and employee portals for streamlined operational workflows.
3. **Provide technical and operational support** for internal IT systems and Value-Added Services (VAS), ensuring availability and performance.
4. **Integrate real-time monitoring tools and alert systems**, including Telegram Bot-based alerts developed in Go, to enhance system visibility.

5. Troubleshoot backend service issues, perform root cause analysis, and implement preventative measures to maintain system stability.

6. Conduct end-to-end testing, covering database validation, user acceptance testing (UAT), and post-deployment verification to ensure feature quality and reliability.

DATABASE TRAINING INSTRUCTOR May 27,2024 – August 19, 2024
INDMO – DILI, TIMOR LESTE

1. Delivered hands-on training on database design and development for employee management systems
2. Guided participants in creating and structuring relational databases (MySQL)
3. Taught integration of backend systems with web applications using PHP (CodeIgniter 3)
4. Covered CRUD operations, authentication logic, and system deployment best practices
5. Empowered **INDMO team** to maintain and expand internal employee management applications

TELKOMCEL OFFICER DEVELOPMENT PROGRAM Nov 2022 – Jun 2023
TELKOMCEL – DILI, TIMOR LESTE

1. Developed REST APIs and dashboards for hardware site monitoring
2. Automated server log parsing into database records for real-time display
3. Built token-based login with Telegram and JWT for extra security layers
4. Developed an IoT-based monitoring system for tracking DC voltage across hardware and site equipment, enabling real-time data collection and system health analysis.
5. Implemented a room temperature monitoring solution for server environments, integrating sensor readings into internal dashboards to ensure environmental stability and prevent overheating.

CO-FOUNDER *Aug 2021 – Present*
MSA – DILI, TIMOR LESTE

1. Designed full-stack education platform with e-learning, job-matching, blog system, and elearning portal
2. Oversaw product development using Go, Express.js, MongoDB, and NextJS
3. Delivered a guest lecture on "Why Technology" at Assales Baucau Fatumaca on July 6, 2024, promoting digital awareness and the role of technology in youth education across Timor-Leste

RESEARCH ASSISTANT Jul 2021 – Jul 2022
TELKOM UNIVERSITY (CPS) – WEST JAVA

1. Join the cyber academy organized by the Cyber physical system (CPS) laboratory
2. Provide discussion material related to basic UI and UX
3. Design and realize automatic parking using PIR and ultrasonic sensors

4. Create a simple website with information on prospective assistants

RESEARCH ASSISTANT Sep 2021 – Sep 2022
TELKOM UNIVERSITY (BYSONIC/CORBY-NET) – WEST JAVA

1. Attend training and pass from IoT fundamentals and embedded systems organized by MBKM Research
2. Provide training related to biomedical sensors
3. Participated in the basic IoT training for 2 times which was held by MBKM research
4. Collect data on expenditures from the laboratory

EDUCATION

BACHELOR OF TELECOMMUNICATIONS ENGINEERING Aug 2018 - Sep 2022
TELKOM UNIVERSITY BANDUNG WEST JAVA GPA 3.36

CERTIFICATIONS

1. Google IT Automation with Python – Coursera
2. Basic Git – Codepolitan
3. Command Line - Codepolitan
4. Algorithm Basics - Codepolitan
5. Introduction to Databases Using MySQL – Codepolitan
6. Using MySQL Databases in PHP Programming – Codepolitan
7. PHP 8 and MySQL: Complete CRUD Guide for Beginners – Codepolitan
8. Linux Server Administrator – ProudIT
9. Learning Go-Lang for Beginners – Codepolitan
10. English – ETDA & Lorosa'e English Institute
11. Indonesian - Bahasa Indonesia bagi Penutur Asing (BIPA)
12. Basic Network Training - Adaptive Network Laboratory
13. Youth Internship Programme - UNDP's Youth Employment and Entrepreneurship Skills (YEES)
14. Cyber Physical Systems – Telkom University
15. Key Account Management - Sinergi Selaras Academy Director
16. Fundamental Cyber Security – Merdeka Siber
17. Prompt Linux – Merdeka Siber

PROFESSIONAL DEVELOPMENT
Merdeka Siber – **Bootcamp Ongoing Coursework**
Akademi Crypto — **Ongoing coursework (subscription):**
Codepolitan - **Ongoing coursework (KelasFullstack - Lifetime)**

ACHIEVEMENTS

1. BEST IT APPS - Mobile Network Operation Telkomcel 2025
2. BEST BSS, Core and Datacom BAND VI - Mobile Network Operation Telkomcel 2024
3. One TELIN Appreciation Impressive Collaboration on Special Project V-Core 2024
4. Officer Development Program (ODP) - Telkomcel

LANGUAGES

1. English – Professional Working Proficiency
2. Portuguese – Basic
3. Tetum – Native
4. Bahasa Indonesia – Conversational

PROFESSIONAL ATTRIBUTES

1. Strong commitment to teamwork and knowledge-sharing
2. Highly attentive to data accuracy, process documentation, and security
3. Reliable in fast-paced technical environments with multiple project deadlines

PROJECT PORTFOLIO

TELKOMCEL VAS MANAGEMENT SYSTEM Jul 2023 – Nov 2023
Golang, CodeIgniter 4 (PHP), MySQL
_____ - Internal Project - Access Restricted

- Developed internal web platform for managing Value-Added Services (VAS) routing across SMS, USSD, and portal systems.

INTL EMPLOYEE MANAGEMENT SYSTEM Oct2023 – Mar 2024
Golang, CodeIgniter 4 (PHP), MySQL
https://intl.tl/

- Built a secure internal web app for **employee records** (profiles, positions, documents) used by the **National Printing Office (INTL), Timor-Leste.**
- Delivered **operational dashboards** and **exportable reports** (CSV/XLS/PDF) to support HR and management decision-making.
- Enforced **role-based access control** (Admin/HR/Manager.

TELKOMCEL BROADCAST MESSAGING SYSTEM Feb 2024 – Aug2024
Golang, CodeIgniter 4 (PHP), MySQL
_____ - Internal Project - Access Restricted

- Built SMS campaign platform to manage broadcast messaging to Telkomcel's subscribers with a secure backend control panel.

DATABASE TRAINING INSTRUCTOR May 2024 – August 2024

INDMO – DILI, TIMOR LESTE

- Delivered hands-on training on database design and development for employee management systems.
- Guided participants in creating and structuring relational databases (MySQL).
- Taught integration of backend systems with web applications using PHP (CodeIgniter 3).
- Covered CRUD operations, authentication logic, and system deployment best practices.

TELKOMCEL - SIM REGISTRATION BACKEND Aug 2024 – Sep 2024
Golang, MYSQL, TELEGRAM BOT API
INTERNAL PROJECT – ACCESS RESTRICTED

- Ingested registrations from all three channels (REST), normalized payloads, enforced KYC validation, and idempotent de-duplication in MySQL.
- Sent real-time Telegram alerts and created an e-portal review queue (Pending → In Review → Approved/Rejected) with audit trails and operator notes.
- On **Approved**, triggered **service activation** for **data, voice, and SMS** via provisioning APIs, and pushed status updates back to the originating channel.

MNO ACTIVITY MONITORING & APPROVAL Aug 2024 – Sep 2024
Golang, MYSQL, CODEIGNITER 4, TELEGRAM BOT API
INTERNAL PROJECT – ACCESS RESTRICTED

- Built an app for MNO officers to submit planned activities with **SOP/MOP attachments**, schedule (start–end), and **impacted service**; system auto-classifies **Low** / **Medium** / **High** based on impact.
- **Tiered approvals** driven by level: **L1 – Assistant Manager**; **L2 – Manager + Senior Manager**; **L3 – VP** (for High). Inline **Approve/Reject** via **Telegram** (with file preview).

IP TRANSIT TRAFFIC CHATOPS Dec 2024 – Dec 2024
Golang, PRTG REST API, TELEGRAM BOT API

- Added **ChatOps commands** in Telegram for quick checks (allowlisted & read-only):
  /traffic <link> (current & last 1/24h), /ping <host>, /trace <host>, /bgp <peer> (session state from NMS data).
- Implemented **RBAC & safety**: user/room allowlist, rate-limit, command log, and masked outputs; no configuration changes permitted.

XANANA GUSMÃO READING ROOM WEB PORTAL Nov 2024 – Feb 2025

Golang, Python, CodeIgniter 4 (PHP), MySQL
https://xananagusmaoreadingroom.tl/

- Delivered a full-featured portal for **member/event registration** with document upload & validation, approval workflows, and real-time status tracking.
- Automated **QR-coded certificate** generation (PDF) plus a public **verification** page; supports batch export and controlled re-issuance.
- Built an **admin dashboard** with search/filter, bulk actions, **role-based access** (Admin/Staff).
- Added **OTP** for account activation especially for Telkomcel Customer.

TAIS 2025 SUMMIT PLATFORM Nov 2024 – Feb 2025

Golang, Python, CodeIgniter 4 (PHP), MySQL
https://tais.tcel.tl/

- Created registration and summit content platform for Telkomcel's flagship annual conference. Includes mobile and web modules.
- Enabled on-site ops: **QR-based check-in**, real-time attendance and room-capacity dashboards, and batch badge printing.

TELIN DIGITAL SOLUTION (TDS) Nov 2024 – Feb 2025

Golang, CodeIgniter 4 (PHP), MySQL
https://tds.tl/

- Crafted a **TDS corporate profile** that tells the brand story—who we are, what we do, where we operate—highlighting value proposition and differentiators

Telkomcel Enterprise Ticketing Dec 2024 – Mar 2025
Laravel, Golang, MySQL, Telegram Bot API, GitHub CI/CD

- Developed an internal enterprise ticketing system to manage corporate complaints and service incidents, enabling faster response, automation, and real-time coordination between Customer Care and Technical Teams.
- Integrated with Telkomcel Enterprise System (ES) for synced customer/service data.
- Telegram notifications for ticket lifecycle and hourly reports.
- Auto ticket creation via service monitoring (Golang).
- Dashboard with MTTR metrics and exportable reports.

JOGOS CPLP 2025 REGISTRATION PORTAL Apr 2025 – July 2025
Golang, PostgreSQL, MYSQL, Redis, Docker
https://jogoscplp2025.tl/

- Built an end-to-end portal for **national & international delegate/participant registration** (teams, officials, athletes) with approvals, document upload, and role-based access.
- **Automated ID card generation**: QR-coded PDFs with role templates, serial numbers, batch printing, and controlled re-issuance.
- Developed a **Flutter mobile app** for on-site validation: scans QR, displays participant details, and **logs geo-trace** (lat/long, timestamp, device) for every check-in; **offline-first** queue with background sync.
- Real-time verification API with signed tokens, rate limiting, **OTP/email verification**, and full **audit trails**.
- Data pipeline and ops: Go workers for bulk jobs (ID generation & notifications), Redis caching, admin dashboards (live registration status, venue check-ins, anomaly flags), CSV/XLS exports.
- Outcome: accelerated accreditation, reduced manual work, and **traceable entry history** across venues.

SMS COMMUNITY Jul 2025 – Aug 2025

Golang, PostgreSQL, MYSQL, Redis, Docker
https://smscom.telkomcel.tl/

- A web-based portal for managing mass SMS campaigns. The system supports user and community group management, campaign scheduling, content setup, quota validation, and delivery reports with OTP-based authentication. Integrated with SMS Gateway and Online Charging System (OCS) via API for quota deduction, ensuring secure, reliable, and scalable community messaging.

E-PORTAL — SSL & DOMAIN MONITORING Aug 2025 – Aug 2025
Golang, MYSQL, Codeigniter 4, Docker
https://e-portal.telkomcel.tl - Internal Project – Access Restricted

- Automated **SSL/TLS checks** (expiry, chain, SAN, TLS version) + HTTP health; results stored in MySQL.
- **Domain/WHOIS & DNS monitoring** (expiry, NS/MX/A/CNAME) with change detection.
- **Telegram alerts** in real time (severity by days-to-expiry) and a daily digest; lightweight CI4 dashboard.

E-PORTAL — CODE OF ETHICS Sep 2025 – Sep 2025
Codeigniter 3, MySQL
https://e-portal.telkomcel.tl/ - Internal Project – Access Restricted

- Added a dedicated **"Not Submitted"** tab that automatically lists employees who haven't submitted the Code of Ethics, replacing manual mapping.

- Refactored back-end logic to compute real-time submission status; added **filters & search** tailored for HC evaluators.
- Streamlined UI (clear empty states, sorting, pagination) to speed HC review and follow-up.

Data Center Temperature Monitoring (IoT) Sep 2025 – Sep 2025
C++, MySQL, ESP32 • Internal Project – Access Restricted
https://e-portal.telkomcel.tl/ *- Internal Project – Access Restricted*

- Deployed ESP32 sensors for continuous temperature telemetry in the data center.
- Implemented threshold-based alerting with three states (**Normal**, **Low**, **High**).
- **Rate limiting:** Normal/Low notifications appear **once per hour**; High alerts fire **every minute** until recovery.

MOS – SMSC INTEGRATION Sep 2025 – Sep 2025
*Golang, MySQL, Kannel (SMPP), Docker | Channel: **SMS 1881 - Telkomcel***
Internal Project – Access Restricted

- Integrated **Kannel** with the **SMSC** to handle MO/MT messages for **1881** and drive subscription **opt-in/opt-out** flows.
- Built a Go service for **message routing, DLR correlation, retry/backoff, and TPS throttling** to ensure reliable delivery.
- Delivered a **transaction log viewer** at https://smscom.telkomcel.tl/ for real-time monitoring (MO/MT, status: Success/Failed, filters & search).
- Containerized **Kannel + services** with Docker for consistent staging/production deployments.

Familink — Cell-ID & Internet Access Control Oct 2025 – Oct 2025
*Golang, MySQL, Redis, Docker, **Telegram Bot API***
Internal Project – Access Restricted

- Minute-interval service calling Familink **getLocation** per subscriber; checks against **allowed CELLID** list/range.
- **In-area:** no action. **Out-of-area:** trigger network **barring** (block internet); auto **unbar** when subscriber returns to an allowed CELLID.
- **Real-time Telegram notifications** to admin channels for every **block/unblock** event (subscriber ID, CELLID, reason, timestamp).
